About Me

A passionate full-stack developer and founder of Electroplix, currently pursuing a degree in Computer Science Engineering, with hands-on experience in building scalable and dynamic end-to-end applications. Proficient in modern technologies including React.js, Next.js, Node.js, BunJS, HonoJS, Elysia, and database solutions like NeonDB, Supabase, PostgreSQL, and MongoDB.

Skilled in deploying serverless architectures using Cloudflare Workers, combining strong technical foundations with creative problem-solving to craft efficient, high-impact digital solutions.
